NAET Consent Form

I, _____ certify that Dr. Devi S. Nambudripad/Kathleen Kenneally, L.Ac. does not claim to cure any illness or disease with NAET (Nambudripad's Allergy Elimination Techniques)

I understand that NAET is not a medical diagnostic procedure and therefore does not diagnose a disease. Rather, NAET gives the practitioner an indication as to the substance(s) to which the patient may have sensitivity. NAET uses various, standard medically proven diagnostic measures and modalities (Allopathic, Chiropractic, kinesiological, and acupuncture) to diagnose the patient's condition. The premise behind NAET is to desensitize a patient to a substance(s) using allopathic, chiropractic, acupuncture/acupressure, nutritional, and kinesiological principles so that the patient may not experience hypersensitive symptoms when they have future contact with them.

I understand that I am (my dependent) to continue all medications and other treatment modalities as they have prescribed unless otherwise directed by the doctor who prescribed them. During the 25 hours or after if I (my dependent) get a life threatening reaction from the allergen I (my dependent) was treated or from some other sources, I need to seek emergency help immediately from a physician qualified in emergency treatments, or by calling 911 or attending an emergency room at the local hospital. If I (my dependent) am suffering from severe allergic reactions to substances, I should consult an appropriate physician and take appropriate medication (such as medication to prevent itching, tissue swelling, fever, cough, pains, infections, metal irritability, violent behaviors', etc.) to keep my (my dependent's) symptoms under control while I (my dependent) am treating with NAET treatments. This way essential NAET treatments can be completed without interruption and once I (my dependent) complete the essential NAET treatments for my (my dependent's) condition, I (my dependent) may not need to continue pharmaceutical drugs indefinitely.

I understand that for 25 hours after the treatment I (my dependent) am to avoid eating, touching, breathing, and coming within 5 feet or more as it was instructed by my practitioner of the substance(s) that I (my dependent) am being treated, I realize that the treatment may not work and I (my dependent) may have a sensitivity reaction.

I understand that I (my dependent) must return after my 25 hours avoidance period preferably within 24 hours but at least within 7 days, to see if I (my dependent) have cleared for the substance(s). I fully understand that I (my dependent) may still experience a reaction to the substance(s) of unknown severity if I (my dependent) come in contact with them if I (my dependent) did not clear them completely. If I (my dependent), did not clear them completely, I (my dependent) may require repeating the procedure (more office visits at my cost) until I (my dependent) clear them satisfactorily.

I give permission to the pain clinic to use my (my ward's) case study in educating other similar patients or accumulating data for research purpose without disclosing my real name or address. I give permission to take photograph of my (my ward's) diseased body part (e.g. in case of skin problems, etc.) to use in research or patient education purpose without disclosing my real name or address.

I have read or have had read to me the above statements and have had opportunity to ask questions about its content and by signing below I agree to the terms and procedures.
